

Compare capacity

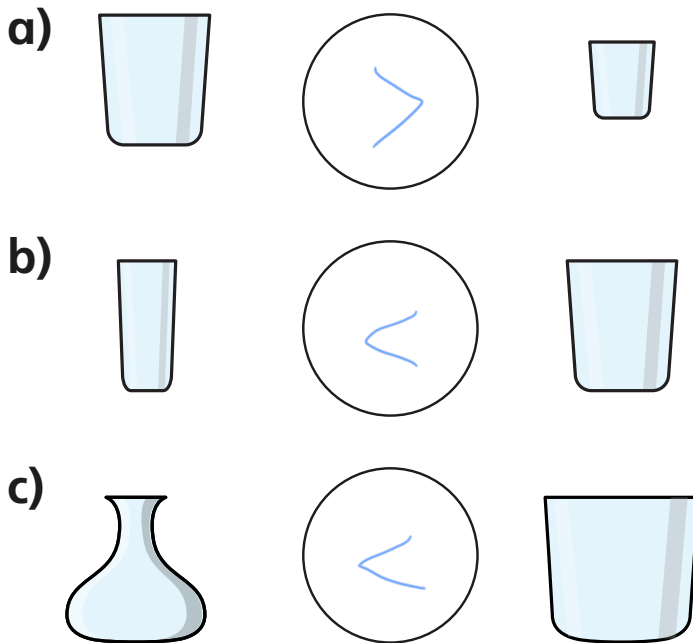

I How many glasses of water will fit in each jug?
Match the jugs to the glasses.

The image shows four jugs on the left and four boxes of glasses on the right. Blue lines connect the jugs to the boxes as follows:

- The largest jug (top left) is connected to the box containing 6 glasses (top right).
- The smallest jug (second from top left) is connected to the box containing 2 glasses (bottom right).
- The medium jug (third from top left) is connected to the box containing 4 glasses (middle right).
- The second largest jug (bottom left) is connected to the box containing 9 glasses (middle right).

2 Write $<$, $>$ or $=$ to compare the capacity of the containers.

3 8 glasses of water fill 1 jug.

3 jugs of water fill 1 bucket.

Which group of containers holds more water?
