

Home Learning Menu w/c 01/06/2020

If your child would like an additional maths or literacy challenge this week, try the challenges on this sheet!

Literacy Challenge

This week we are learning all about the oceans and celebrating World Ocean Day on June 8th.

This week, you can either:

Design a poster reminding people to take their litter home from the beach

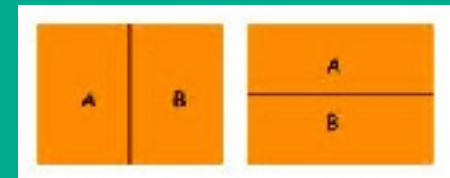

or

Write a list of instructions on how to recycle, based on what your family do to recycle at home.

Maths Challenge

How many ways can you halve a piece of A4 paper?

You might start off with something like these two, for example:

How will you know if they are halves?

Remember, halves are two **equal** parts.

Can you find a way to record what you find out?
